

# THE BLUE CRUDE VALVE® FOR H<sub>2</sub>O

Stealth International Inc. is a leading manufacturer of Energy Dissipating Valves, ED's diffuser systems and associated piping in sizes 100 mm to 2000 mm.

Our systems are suitable for global applications, manufactured to meet international standards and pressure ratings.

Stealth was first to develop the Bi-Directional capability and unique packing system obtaining two patents with this type of valve.

Our 78 inch (1980mm) IBC Valve and piping diffuser system manufactured in Canada is illustrated in this edition.
